With compliments

Australian Technology Park - Sydney • 12 - 13 September 2012

Make new connections

In the fast paced world of electronics design for product & systems manufacturing this two day exhibition and major conference is the best opportunity to compare and source all the latest products, technologies and solutions to gain a competitive business edge.

Electronics, OEM, scientific and industrial professionals are invited to this specialised event to service your procurement requirements for design, product & system assembly, manufacture, R&D, test, measurement, maintenance and distribution.

Showcasing the future path and technologies for production electronics!

The electronics industry has come together at Electronex to showcase the latest products, systems and new technology. Meet & discuss your requirements with industry experts. Find the smarter, faster, smaller technologies to drive future business!

What's New In Electronics
Zowie Technology*

* denotes product or company represented on stand by exhibiting Aust / NZ agent or distributor.

What's on Show

- Assembly equipment • Board cleaning
- Cables & connectors • CAD & manufacturing software
- Cases • Contract manufacturing
- Design and development tools • Displays
- Education training and certification
- Electronics repair • Electronic and electrical component supply
- Embedded computers and systems
- Enclosures • EMI/EMC control & certification
- GPS controls • Industrial computers and platforms
- Identification and labeling
- Industrial panels • M2M connectivity tools
- Measurement equipment & instrumentation
- Membranes & overlays • Motors & drives
- PCB design & fabrication • Power converters batteries & supplies
- Prototyping
- Rework tools • Microwave RF and wireless solutions
- Service & maintenance equipment
- Semiconductor & microchip technology
- Soldering supplies • Solar supplies
- Switches • Test equipment • Touchscreens and controls
- Wire & harness

Who should attend

Electronex has new products and solutions for professionals in the following areas:

- Automotive, Aviation and Transport
- Broadcast, IT and Communications
- OEMs, General Manufacturing and Engineering
- Product Design and Systems Integration
- Medical and Biomedical
- Defence, Security, Government & Utilities
- Scientific, R&D, Education and Training
- Test, Measurement, Service and Repair
- Industrial, Mining and Construction

Times and Venue

Australian Technology Park is located 2kms south of the city and is 8kms from the airport.

Australian Technology Park - Eveleigh

Wednesday 12 September 10.00 am - 6.00 pm

Thursday 13 September 9.00 am - 5.00 pm

SMCBA Conference

The Electronics Design and Manufacture Conference delivers the latest information on a host of topics. International presenters include Gary Ferrari, Director of Technical Support for FTG Circuits, Dave Hillman, Rockwell Collins Advanced Operations Engineering and Craig Hillman, Director of DfR Solutions. For full conference details visit www.smcba.asn.au

Proudly sponsored by

Assembly Specialists Ltd.
